OVER BUDGET

Where the money went - every dollar, mapped

All 13 tracker tabs combined (12 shows + Season Supply). Box size = dollars spent, like a disk-space map.

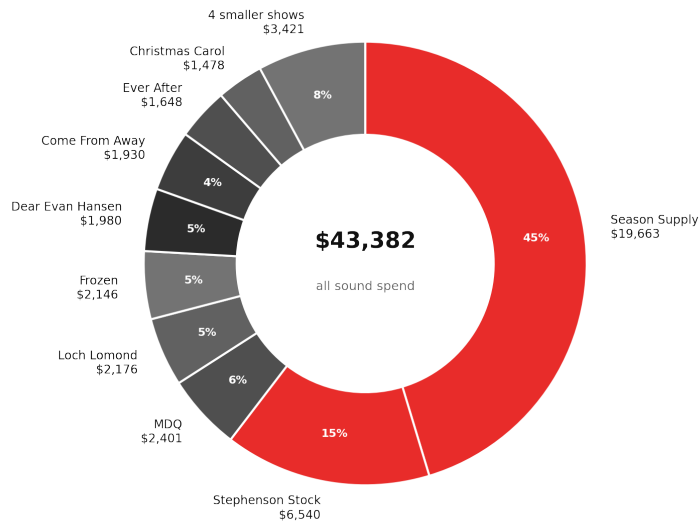

The takeaway

- Mics & RF is the biggest pot (\$12,615 - 29%): elements, caps, rentals and sweat-out repairs.
- Batteries & Power (\$6,912) and Contractor invoices (\$6,783 - Apex RF, Dave, Clearwing) complete the top three.
- Sweat protection consumables cost \$1,525 - cheap insurance against the \$12.6k mic pot.

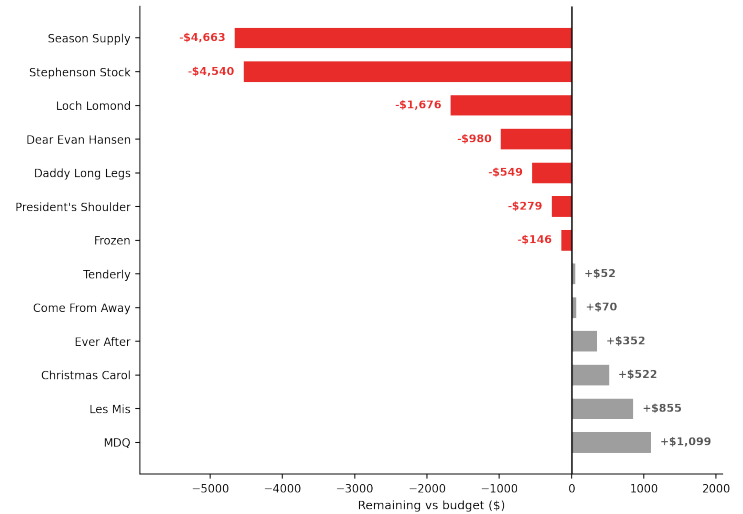

SOUND SPEND REPORT

BY SHOW - BY VENDOR - VS BUDGET

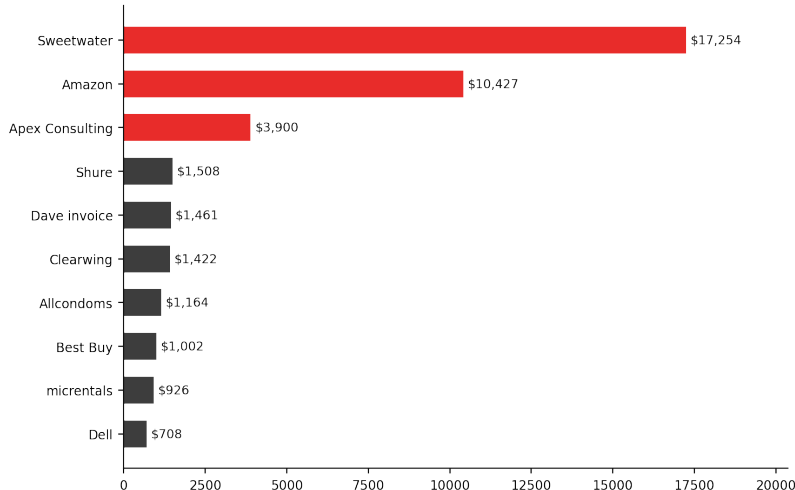

Spend by show

Over / under budget by tab

Top 10 vendors

Notes & flags

The two big red pools aren't shows: Season Supply (-\$4,663) and Stephenson Stock (-\$4,540) - shared gear, consumables and build-out.

6 of 12 shows finished in the black: Carol, MDQ, CFA, Tenderly, Ever After and Les Mis*.

***Les Mis still open** - buys landing through 6/26.

All flagged repeats verified real (2x battery orders, 2x Allcondoms) - totals are final.

Tab is not always the show: surplus budget on one tab sometimes absorbs another show's purchase.

Amazon = 45+ line items but only ~\$9.4k.

Big dollars go through Sweetwater, Apex and contractor invoices.
